

No RB/CNV/TIS/133/2008
 Government of Goa,
 Office of the Collector,
 North Goa District,
 Panaji - Goa.

Dated - 16/12/2011

Read: Application dated Nil, from Mr. Pascoal Trindade, r/o. Bambolim, Tiswadi-Goa.

**SANAD
 SCHEDULE-II**

(See Rule 7 of the Goa, Daman and Diu Land Revenue (Conversion of use of land and non-agricultural Assessment) Rules, 1969).

Whereas an application has been made to the Collector of North Goa (Hereinafter referred to as "the Collector" which expression shall include any officer whom the Collector shall appoint to exercise and perform his powers and duties under this grant) under section 32 of the Goa, Daman and Diu Land Revenue Code, 1968 (hereinafter referred to as "the said code" which expression shall, where the context so admits include the rules and orders thereunder) Mr. Pascoal Trindade, being the occupants of the plot registered under Survey No. 93/2 known as - Situated at village Bambolim, Tiswadi Taluka registered under Survey No. 93/2 (hereinafter referred to as "the applicants, which expression shall, where the context so admits include his/her heirs, executors, administrators and assigns) for the permission to use the plots of land (hereinafter referred to as the "said plot" described in the Appendix I hereto, forming a part Survey No. 93/2 measuring 32600 Square Metres be the same a little more or less for the purpose of Residential Use.

Now, this is to certify that the permission to use for the said plots is hereby granted, subject, to the provisions of the said code, and rules thereunder, and on the following conditions, namely:-

1. Levelling and clearing of the land - The applicants shall be bound to level and clear the land sufficiently to render suitable for the particular non-agricultural purpose for which the permission is granted to prevent insanitary conditions.

2. Assessment - The Applicants shall pay the non-agricultural assessment when fixed by the Collector under the said Code and rules thereunder with effect from the date of this sanad.

3. Use - The applicants shall not use the said land and building erected or to be erected thereon for any purpose other than Residential use, without the previous sanction of the Collector.

4. Liability for rates - The applicants shall pay all taxes, rates and cesses leviable on the said land.

5. Penalty clause - (a) if the applicants contravenes any of the foregoing conditions the Collector may, without prejudice to any other penalty to which the applicants may be liable under the provisions of the said Code continue the said plot in the occupation of the applicants and payment of such fine and assessment as he may direct.

(b) Notwithstanding anything contained in sub-clause (a) it shall be lawful for the Collector to direct the removal or alteration of any building or structure erected or to be erected thereon in contravention of the provisions of this grant within such time as specified in that behalf by the Collector, and on such removal or alteration not being carried out and recover the cost of carrying out the same from the applicant as an arrears of land revenue.

6. (a) The Information, if any, furnished by the applicant for obtaining the Sanad is found to be false at later stage, the Sanad issued shall be liable to be withdrawn without prejudice to the legal action that may be taken against the applicant.

b) If any dispute arises with respect to the ownership of the land, the Sanad granted shall stand revoked and the Construction/Development carried out shall be at the cost and risk of the applicants.

c) The necessary road widening set-back to be maintained before any development in the land.

d) Traditional access passing through the plot, if any, shall be maintained.

e) No trees shall be cut except with prior permission of the competent authority.

Contd...

7. Code provisions applicable - Save as herein provided the grant shall be subject to the provisions of said Code and rules thereunder.

TECHNICAL CLEARANCE ORDER

Technical Clearance is hereby granted for carrying out the work of proposed construction of Residential Complex & Compound Wall as per the enclosed approved plans in the property zoned as Settlement (VP-1) in Regional Plan for Goa 2021 and situated at Bambolim village bearing Sy. No. 93/2(P) of Tiswadi Taluka with the following conditions:-

- 1) Construction shall be strictly as per approved plans. No change shall be effected in the approved plans/ approved built spaces without the prior permission of this authority.
- 2) The permission granted shall be revoked, if any information, plans, calculations, documents and any other accompaniments of the application are found incorrect or wrong at any stage after the grant of the permission and the applicant will not be entitled for any compensation.
- 3) The permission shall be revoked if found expedient to such an action under the provision of section 50 of the Goa Town & Country Planning Act 1974.
- 4) The development permission will not entitle the applicant for making/laying any claim on water and any other connection from the government of Goa.
- 5) The Developer/applicant should display a sign board of minimum size 1.00 mts x 0.50 mts with writing in black colour on a white background at the site, as required under the Regulations.
- 6) The applicant shall obtain conversion sanad under the Goa Land Revenue Code 1968, before the commencement of any development/construction as per the permission granted by this order.
- 7) The soak pit should not be located within a distance of 15.00 meters from any other existing well in the plot area/plan.
- 8) The commencement and the completion of the work shall be notified to this office in writing in appropriate forms.
- 9) Completion certificate has to be obtained from this office before applying for occupancy certificate from the licensing authority.
- 10) Storm water drain should be constructed along the boundary of the effected plot abutting to the road.
- 11) In case of compound walls, the gates shall be open inwards only and traditional access, if any passing through the property shall not be blocked.
- 12) Adequate utility space for the dustbin, transformer etc, should be reserved within the plot area. In case of any cutting of sloppy land or filling of low lying land, beyond permissible limits prior permission of the Chief Town Planner shall be obtained before the commencement of the works as per the provisions of section 17(A) of the Goa Town & Country Planning Act 1974.
- 13) The Ownership of the property shall be verified by the licensing body before issuing of the licence.

- 4) All the set back as shown on the site plan shall be strictly maintained.
 - 5) The balconies proposed should not be covered in any fashion, which may lead to access FAR.
 - 16) Along the intersection of the streets, no compound wall shall be raised to a height of more than 0.90 mts from the crown of the road for length of 0.9 mts from the intersection of the street. This distance being measured from the corner point of the plot.
 - 17) Maximum height of the compound wall along the boundary other than that abutting on a street may be permitted upto a height of 1.80 mts and along the boundary abutting on a street upto a 1.50 mts only and may be closed type upto a height of 90 cm only and of open type above that height.
 - 18) The still parking shown for building A & B should be strictly use for parking purpose only and it should not be close at any time.
 - 19) Appropriate system for collection of disposal of solid and liquid waste shall be provided.
 - 20) Solar water heating/Solar energy capturing system should be provided as per regulation.
 - 21) Fire Dept. clearance should be obtained if required.
 - 22) As the total built up area is more than 20,000 m² hence MOEF approval has to be obtained before obtaining the construction licence.
 - 23) All Permissions granted during the period of facilitation process of RPG - 21 shall be subject to review/revocation if found inconsistent with the criteria.
- This approval is accorded after Chief Town Planner's concurrence.
- THIS ORDER IS ISSUED WITH REFERENCE TO THE APPLICATION
DATED 30/01/2012 FROM Shri. Pascoal Trindade.

Vertika Dagur
Town Planner

NOTE: Pursuant to this office assessment order No. TIS/6124/BAM/TCP/12/308 dt. 26/03/2012, the applicant vide challan No. 399 dt. 26/3/12 has paid the Infrastructure tax of Rs. 20,91,749/- (Rupees twenty lakhs ninety one thousand seven hundred forty nine only).

APPENDIX-C4

Village Panchayat Building LicenceVillage Panchayat Curca Bambolim & Talaulim, Tiswadi-Goa.CONSTRUCTION LICENCE

No VP/CRT/2013-14/Const/186

Date 02/05/2013

licence is hereby granted for carrying out the Construction of Residential Complex and compound wall as per enclosed plan and conditions therein should be strictly complied.

- a) As per the enclosed approval plan/plans in the property zoned as (VP-I) in the ODP and situated at Bambolim village/Town bearing Survey No. 93/2(P).
 - b) No Objection Certificate issued by Director of Health Service, Panaji-Goa, vide Ref.No. UHCP/DHS/NOC/12-13/326 dt. 27/04/2012 from conditions 1 to 12.
 - c) The Town Planner, Town & Country Planning Department, Tiswadi, Panaji Goa vide No. Tis/6124/BAM/TCP/12/384 dated 03/04/2012 from conditions 1 to 23.
1. The applicant shall notify the Panchayat for giving the alignment of the building.
 2. The construction should maintain the minimum prescribed horizontal and vertical clearance from any overhead electrical line passing adjacent to the construction.
 3. All RCC/Structural works shall be designed and supervised by the Engineer who has signed the Structural Liability Certificate submitted to the Panchayat.
 4. No material for construction or earth from excavation or any other construction material shall be stacked on the Public roads.
 5. The Building should not be occupied unless the Occupancy certificate is obtained from the Panchayat.
 6. The Construction licence shall be revoked if the construction work is not executed as per the approved plans and the statement therein and whenever there is any false statement or misrepresentation of any material; passed, approved or shown in the application on which the permit was based.
 7. The applicant should construct a separate soak pit in order to derivate in the sullage water.
 8. Any soak pit should be constructed at a minimum distance of 15 meters away from any well.
 9. The ventilation pipe of the septic tank should be provided with a mosquito net.
 10. The Applicant should connect the pipeline from their latrines/WC's to the sewerage line at their own cost, when the sewerage line is commissioned.
 11. The Applicant should fix a board at a prominent place whenever the construction is started, including the number, the date and the authority for which the licence for development work has been granted.
 12. All the building material and other rubbish should be cleared from the construction site before applying for the Occupancy certificate.
 13. Water storage tanks shall be provided with mosquito proof lids and over flow pipes. The tanks should be provided with access ladders wherever necessary.
 14. The drains surrounding the plot if any should be constructed with PCC and should be covered with removable RCC slabs of sufficient thickness.
 15. The applicant should gift the road widening area to the Village Panchayat before applying for the Occupancy certificate, if the applicant has utilized the extra FAR in lieu of the road widening affecting the plot.
 16. The applicant should plaster and paint the building internally as well as externally before applying for Occupancy certificate. Exposed brick/laterite/concrete/stone/ashlars masonry finish to building will also be permitted.

Cont....2...

...2...

17. The applicant should provide a dustbin at a convenient place accessible for the Municipal vehicle for collection of garbage.
18. Road widening area shall be asphalted to the existing road level before applying for occupancy certificate.
19. Garbage and Parking area shown in the approved plan shall be strictly used for parking purpose only and should be easily accessible to vehicles. No commercial activities shall be allowed in these areas.
20. Access up to the entrance of the building is to be paved and is provided with drainage facilities.
21. Space for parking of vehicles is clearly demarcated on the ground.
22. No Restaurants/Bars will be permitted in the shops unless a separate soak pit is provided besides confirming to the rules in force.
23. No commercial activities will be permitted in the shops unless a separate permission is obtained from this Panchayat.
24. All Temporary sheds/Existing buildings shown to be demolished in the plan are demolished before applying for Occupancy certificate.
25. Fire Escape staircase, if applicable shall be constructed as indicated in the approved plans.
26. All internal courtyards should be provided with drainage outlet.
27. The applicant should maintain all existing natural drains in the plot and should not block them at any stage.
28. No soak pit or other structure should come in the road widening area.
29. The plot boundary should be cordoned off by continuous sheet fencing either of wood or metal during the construction period.
30. The construction of compound wall should not obstruct any pathway or any public access. The applicant shall make necessary arrangement for smooth flow of rain water by keeping adequate opening in the compound wall for all purpose.
31. No gates shall open outwards on to the road.
32. The construction of the compound wall should be as per the approved plan. The applicant shall inform this Panchayat after the completion of the compound wall.
33. Drinking water well should be 15 meters away from any soak pit.

This Construction licence is issued as per the Resolution No.5-1(a) held on 30/04/2013 in Panchayat meeting and Construction licence fees to the tune of Rs. 8,54,079/- is collected vide Receipt No. 106/61 dt. 02/05/2013.

THIS LICENCE IS VAILD FOR A PERIOD OF THREE YEARS FROM THE DATE OF ISSUE OF THIS LICENCE. RENEWAL IF REQUIRED SHALL BE APPLIED WITHIN THE PERIOD OF THE VALIDITY OF THE LICENCE.

Sub.: Proposed residential project in Survey no. 93/2 of Bambolim village in Tiswadi taluka of North Goa district. - reg.,

Sir,

I am directed to refer to your application dated 7th November 2012 seeking prior Environmental Clearance (EC) for the above project under the EIA Notification, 2006. Accordingly, the above proposed has been screened and appraised under Category 8 (a) on the basis of the documents enclosed with application viz. Form 1 and Form 1A (conceptual plan) as well as in response to the project-specific observations (*i.e. project presentation followed by site-inspection*) considered by the Goa State Expert Appraisal Committee (Goa-SEAC) in its Tenth meeting held on 11th December 2012 and Goa State Environment Impact Assessment Authority (Goa-SEIAA) in its Sixth and Seventh meeting held on 7th February 2013 and 15th March 2013 respectively.

2. It is noted that the proposal is for grant of prior Environmental Clearance (EC) for the construction a new residential project (*i.e. 111 units with G+4 structure including 72 flats and 39 villas*) in Survey no. 93/2 of Bambolim village in Tiswadi taluka of North Goa district. Project details and salient features of the proposed developmental activity is as under -

- a. Total plot area - 35,600 sq. mt.
- b. Area under No Development Zone - 600 sq.mts.
- c. Area under road widening - 120 sq.mts.
- d. Effective plot area - 34,880 sq. mts.
- e. Proposed built-up area - 26,313.69 sq.mts.
- f. Open space proposed - 5,245 sq. mts.
- g. Proposed covered area - 9,219.32 sq.mts.
- h. Proposed area for green-belt - 10,000 sq.mts.

- i. Expected total occupancy - 850 persons
- j. Parking proposed - 217 ECS
- k. Geo-technical soil investigation has been proposed.
- l. Water requirement -

During Construction phase - 55m³/day to be sourced from private tankers.

During operational phase - 125m³/d (i.e. 75 m³/d sourced from PWD and 50 m³/d sourced from recycled water from STP)

- m. One time water demand for fire-fighting - 200 m³.
- n. PP has proposed to construct underground water storage tanks (50 m³ capacity for every building.
- o. Wastewater generated - 100 m³/d to be treated in 120 CMD Sewage Treatment Plant (STP) with Moving Bed Bio-Reactor (MBBR) technology. 80 kgs./month of sludge generated is to be used as manure. It is proposed that recycled water will be used for flushing, car washing / gardening.

- p. Solid waste generated -

During construction phase - 50 kgs./day of domestic waste to be disposed-off through local authorities and 200 kgs./day of debris generated to be used for land-filling within the plot.

Hazardous waste generated (i.e. used oil from D.G. sets (20 kgs./m during construction and 10 kgs./m during operation) will be suitably disposed-off.

During operational phase - 425 kgs./day - biodegradable waste (255 kgs./d) to be treated through in-house mechanical composting. While, non-biodegradable waste (170 kgs./d) to be disposed through authorized recycler.

- q. Power requirement :

Construction phase - 100 KVA to be sourced from GSEB / Diesel generator.

Operation phase - 800 KVA, to be sourced from Goa State Electricity Board.

Back-up power through 01 DG sets of 65 KVA capacity.

- r. EMP has been prepared.

3. In view of the above and based on the recommendations of the Goa-SEAC; Goa-SEIAA, subsequent to compliances sought to project-specific observations / site-specific clarifications, has decided to accord prior Environmental Clearance (EC) to the said project under the provision of the Environment Impact Assessment (EIA) Notification, 2006; subject to compliance to the following "General Conditions":-

- a. Nutrient-rich top soil excavated during the construction phase be separately dumped/stored within the project area and be utilized during landscape development instead of using the same as filling material/reclamation.

Accordingly, Project Proponent (PP) should estimate approximate tonnage / volume of top soil required to be excavated along with the plan indicating the location where such topsoil is proposed to be stockpiled as well as indicate/furnish proposed plan for its utilization towards landscaping.

- b. The PP should use Ready-Mixed Concrete (RMC) to minimize air / water / land pollution and water usage during the construction phase.
- c. The Project Proponent (PP) should necessarily explore the possibility of energy conservation by tapping solar-based or hybrid energy sources towards power requirements.
- d. PP should adopt roof-top rainwater harvesting / conservation measures in the form of storing the harvested water so as to optimally utilize the water availability by constructing sumps for collection of rainwater or by collecting water in large polythene tanks thereby saving on utilization of tap water. Accordingly, PP should furnish approximate quantity of the water proposed to be stored / conserved which should be proportionate with the available rainfall within the developmental area. This should be in addition to structures, proposed if any, namely recharge-pits, which would recharge the groundwater aquifers. Thus, PP should submit a plan demarcating the areas for water storage / bore well location & groundwater recharge structures / STP installation, etc.
- e. As a Corporate Social Responsibility (CSR), the PP should establish / assist in establishing a non-project based infrastructure facility for nearby society / community / local authority and set-up a precedent for other competitors so as to achieve bottom-top approach.
- f. PP should prioritize the issues related to health and hygiene in complying with the matters related to waste disposal & treatment / air & water pollution / waste-water management.
- g. PP should not disturb the natural drainage and as far as possible maintain the original topography while designing for landscape development by planting local site-specific plant species and which are not alien to the local environment. No any varieties of *acacia* be used either as avenue plantations or as live-fencing.
- h. PP should clarify any issue related to public objections, if any, and should not conceal the scientific facts in light of the proposed developmental activity vis-à-vis its landuse categorization/zoning.
- i. PP should also submit half-yearly compliance report(s) in hard as well as soft copy format to the O/o the Goa-SBAC and Goa-SEIAA for the period upto project completion so as to enable project monitoring during the construction phase.

- j. Considering the existing land use / land cover of the plot area, the PP should necessarily adapt roof-top rainwater harvesting system for optimum utilization of water resources, especially for landscape development and its maintenance.
4. Further, the project proponent has been advised as regard to the following:
 - a. 'Consent to Establish' shall be obtained from the Goa State Pollution Control Board (GSPCB) under Air Act and Water Act, as applicable and a copy shall be submitted to the O/o the Goa-SEAC and Goa-SEIAA.
 - b. Permission to draw groundwater, if any, shall be obtained from the Groundwater Cell of the Water Resources Department (WRD) prior to construction/ operation of the project.
 - c. Project proponent shall not make any change in the Layout Plan / Master Plan submitted to the Authority without its prior permission. In case of any change(s) in the scope of the project and/or otherwise, the project would require a fresh appraisal by the competent authority, as applicable.
 - d. Traffic congestion near the entry and exit points from the roads adjoining the proposed project site must be avoided. Parking should be fully internalized and no public space should be utilized for the same.
 - e. Project proponent shall make suitable provisions for waste water treatment and storm water disposal independently.
 - f. The diesel generator sets to be used during construction / after commissioning should be low sulphur diesel type and should conform to Environment (Protection) Rules prescribed for air and noise emission standards.
 - g. The installation of the Sewage Treatment Plant (STP) should be certified by the Goa State Pollution Control Board (GSPCB) and a report in this regard should be submitted to the Authority before the project is commissioned for operation.
 - h. Project proponent shall advertise at least in two local newspapers widely circulated in the region around the project, one of which shall be in the Konkani and Marathi language within seven days of the receipt of this letter, informing that the project has been accorded prior Environmental Clearance (EC) and the copies of the clearance letter are available on the DST&E website.
 - i. The Environmental Clearance is being issued without prejudice to the court case pending in the Court of law and it does not mean that project proponent has not violated any environmental laws in the past and whatever decision of the Hon'ble Court will be binding on the project

proponent. Hence, this EC does not give immunity to the proponent in the case filed against it.

- j. The Authority reserves the right to add any stringent conditions or to revoke the EC, if conditions stipulated are not implemented / complied with to the satisfaction of the Authority or for that matter, for any other administrative reasons.
- k. Validity of the Environmental Clearance (EC) accorded shall be for a period of 05 (five) years from the date of its issue.
- l. Any appeal against this prior environmental clearance shall lie with the National Green Tribunal (NGT), if preferred, within 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010 (Central Act 19 of 2010).

Yours faithfully,

(Levinson J. Martins)

Re: Application dated Nil, from Mr. Pascoal Trindade, r/o. Bambolim, Tiswadi-Goa.

**SANAD
SCHEDULE-II**

(See Rule 7 of the Goa, Daman and Diu Land Revenue (Conversion of use of land and non-agricultural Assessment) Rules, 1969).

Whereas an application has been made to the Collector of North Goa (Hereinafter referred to as "the Collector" which expression shall include any officer whom the Collector shall appoint to exercise and perform his powers and duties under this grant) under section 32 of the Goa, Daman and Diu Land Revenue Code, 1968 (hereinafter referred to as "the said code which expression shall, where the context so admits include the rules and orders thereunder) Mr. Pascoal Trindade, being the occupants of the plot registered under Survey No. 93/3(Part) known as - Situated at village Bambolim, Tiswadi Taluka registered under Survey No. 93/3(Part) (hereinafter referred to as "the applicants, which expression shall, where the context so admits include his/her heirs, executors, administrators and assigns) for the permission to use the plots of land (hereinafter referred to as the "said plot" described in the Appendix I hereto, forming a part Survey No. 93/3(Part) admeasuring 10000 Square Metres be the same a little more or less for the purpose of Residential Use.

Now, this is to certify that the permission to use for the said plots is hereby granted, subject, to the provisions of the said code, and rules thereunder, and on the following conditions, namely:-

1. Levelling and clearing of the land - The applicants shall be bound to level and clear the land sufficiently to render suitable for the particular non-agricultural purpose for which the permission is granted to prevent insanitary conditions.

2. Assessment - The Applicants shall pay the non-agricultural assessment when fixed by the Collector under the said Code and rules thereunder with effect from the date of this sanad.

3. Use - The applicants shall not use the said land and building erected or to be erected thereon for any purpose other than Residential use, without the previous sanction of the Collector.

4. Liability for rates - The applicants shall pay all taxes, rates and cesses leviable on the said land.

5. Penalty clause - (a) if the applicants contravenes any of the foregoing conditions the Collector may, without prejudice to any other penalty to which the applicants may be liable under the provisions of the said Code continue the said plot in the occupation of the applicant ~~the applicant~~ of such fine and assessment as he may direct.

(b) Notwithstanding anything contained in sub-clause (a) ~~it shall be lawful for the Collector to direct~~ the removal or alteration of any building or structure erected or use ~~thereon~~ within such time as specified in that behalf by the Collector, and on such removal or alteration not being carried out and recover the cost of carrying out the same from the applicant as an arrears of land revenue.

6.a) The information, if any, furnished by the applicant for obtaining the Sanad is found to be false at later stage, the Sanad issued shall be liable to be withdrawn without prejudice to the legal action that may be taken against the applicant.

b) If any dispute arises with respect to the ownership of the land, the Sanad granted shall stand revoked and the Construction/Development carried out shall be at the cost and risk of the applicants.

c) The necessary road widening set-back to be maintained before any development in the land.

d) Traditional access passing through the plot, if any, shall be maintained.

e) No trees shall be cut except with prior permission of the competent authority.

Contd...

7. Code provisions applicable - Save as herein provided the grant shall be subject to the provisions of the said Code and rules thereunder.

TECHNICAL CLEARANCE ORDER

Technical Clearance is hereby granted for carrying out the work of proposed construction of Residential Complex and Compound wall as per the enclosed approved plans in the property zoned as (VP-1) in Outline Development Plan of Panaji (old ODP) situated at Bambolim village of Tiswadi Taluka bearing Sy.No.93/3(P) with the following conditions:-

- 1) Construction shall be strictly as per approved plans. No change shall be effected in the approved plans/approved built spaces without the prior permission of this authority.
- 2) The permission granted shall be revoked, if any information, plans, calculations, documents and any other accompaniments of the application are found incorrect or wrong at any stage after the grant of the permission and the applicant will not be entitled for any compensation.
- 3) The permission shall be revoked if found expedient to such an action under the provision of section 50 of the Goa Town & Country Planning Act 1974.
- 4) The development permission will not entitle the applicant for making/laying any claim on water and any other connection from the government of Goa.
- 5) The Developer/applicant should display a sign board of minimum size 1.00 mts x 0.50 mts with writing in black colour on a white background at the site, as required under the Regulations.
- 6) The applicant shall obtain conversion sanad under the Goa Land Revenue Code 1968, before the commencement of any development/construction as per the permission granted by this order.
- 7) The soak pit should not be located within a distance of 15.00 meters from any other existing well in the plot area/plan.
- 8) The commencement and the completion of the work shall be notified to this office in writing in appropriate forms.
- 9) Completion certificate has to be obtained from this office before applying for occupancy certificate from the licensing authority.
- 10) Storm water drain should be constructed along the boundary of the effected plot abutting to the road.
- 11) Adequate utility space for the dustbin, transformer etc, should be reserved within the plot area.
- 12) In case of any cutting of sloppy land or filling of low lying land, beyond permissible limits prior permission of the Chief Town Planner shall be obtained before the commencement of the works as per the provisions of section 17(A) of the Goa Town & Country Planning Act 1974.
- 13) In case of compound walls, the gates shall be open inwards only and traditional access, if any passing through the property shall not be blocked.

- 14) The Ownership of the property shall be verified by the licensing body before issuing of the licence.
- 15) All the set back as shown on the site plan shall be strictly maintained.
- 16) The balconies proposed should not be covered in any fashion, which may lead to access FAR.
- 17) Along the intersection of the streets, no compound wall shall be raised to a height of more than 0.90 mts from the crown of the road for length of 0.9mts from the intersection of the street. This distance being measured from the corner point of the plot.
- 18) Maximum height of the compound wall along the boundary other than that abutting on a street may be permitted upto a height of 1.80 mts and along the boundary abutting on a street upto a 1.50 mts only and may be closed type upto a height of 90 cm only and of open type above that height.
- 19) Proposed stilt for parking shall be strictly used for parking of vehicles only and shall not be closed at any point of time.
- 20) Collection and disposal of solid and liquid waste shall be implemented as per the project report submitted.
- 21) Solar water heating/solar energy capturing system shall be implemented as per the project report submitted.
- 22) Fire department clearance shall be obtained if required.
- 23) This NOC is issued with Government approval.
- 24) The applicant should complete the approach road as per the PWD specification before obtaining occupancy certificate.

THIS ORDER IS ISSUED WITH REFERENCE TO THE APPLICATION UNDER INWARD NO.6234 DATED 10/9/12 FROM Mr. Pascoal Trindade.

(THIS ORDER IS VALID FOR THREE YEARS FROM THE DATE OF ISSUE OF CONSTRUCTION LICENCE, PROVIDED THE CONSTRUCTION LICENCE IS ISSUED WITHIN THE PERIOD OF THREE YEARS).

Dated :-16/12/2011

Read: Application dated Nil, from Mr. Pascoal Trindade, r/o. Bambolim, Tiswadi-Goa.

**SANAD
SCHEDULE-II**

(See Rule 7 of the Goa, Daman and Diu Land Revenue (Conversion of use of land and non-agricultural Assessment) Rules, 1969).

Whereas an application has been made to the Collector of North Goa (Hereinafter referred to as 'the Collector' which expression shall include any officer whom the Collector shall appoint to exercise and perform his powers and duties under this grant) under section 32 of the Goa, Daman and Diu Land Revenue Code, 1968 (hereinafter referred to as 'the said code which expression shall, where the context so admits include the rules and orders thereunder) Mr. Pascoal Trindade, being the occupants of the plot registered under Survey No. 93/4(Part) known as - Situated at village Bambolim, Tiswadi Taluka registered under Survey No. 93/4(Part) (hereinafter referred to as 'the applicants, which expression shall, where the context so admits include his/her heirs, executors, administrators and assigns) for the permission to use the plots of land (hereinafter referred to as the 'said plot' described in the Appendix I hereto, forming a part Survey No. 93/4(Part) admeasuring 32920 Square Metres be the same a little more or less for the purpose of Residential Use.

Now, this is to certify that the permission to use for the said plots is hereby granted, subject, to the provisions of the said code, and rules thereunder, and on the following conditions, namely:-

1. Levelling and clearing of the land-The applicants shall be bound to level and clear the land sufficiently to render suitable for the particular non-agricultural purpose for which the permission is granted to prevent insanitary conditions.

2. Assessment - The Applicants shall pay the non-agricultural assessment when fixed by the Collector under the said Code and rules thereunder with effect from the date of this sanad.

3. Use-The applicants shall not use the said land and building erected or to be erected thereon for any purpose other than Residential use, without the previous sanction of the Collector.

4. Liability for rates-The applicants shall pay all taxes, rates and cesses leviable on the said land.

5. Penalty clause-(a) if the applicants contravenes any of the foregoing conditions the Collector may, without prejudice to any other penalty to which the applicants may be liable under the provisions of the said Code continue the said plot in the occupation of the applicants and pay of such fine and assessment as he may direct.

(b) Notwithstanding anything contained in sub-clause (a) it shall be lawful for the Collector to direct the removal or alteration of any building or structure erected or use contrary to the provisions of this grant within such time as specified in that behalf by the Collector, and on such removal or alteration not being carried out and recover the cost of carrying out the same from the applicant as an arrears of land revenue.

6.a) The Information, if any, furnished by the applicant for obtaining the Sanad is found to be false at later stage, the Sanad issued shall be liable to be withdrawn without prejudice to the legal action that may be taken against the applicant.

b) If any dispute arises with respect to the ownership of the land, the Sanad granted shall stand revoked and the Construction/Development carried out shall be at the cost and risk of the applicants.

c) The necessary road widening set-back to be maintained before any development in the land.

d) Traditional access passing through the plot, if any, shall be maintained.

e) No trees shall be cut except with prior permission of the competent authority.

TECHNICAL CLEARANCE ORDER

Technical Clearance is hereby granted for carrying out the work of proposed construction of Residential Complex & compound wall as per the enclosed approved plans in the property zoned as S3(VP-I) in ODP and situated at Bambolim village bearing Sy.No.93/4(P) with the following conditions:-

- 1) Construction shall be strictly as per approved plans. No change shall be effected in the approved plans/ approved built spaces without the prior permission of this authority.
- 2) The permission granted shall be revoked, if any information, plans, calculations, documents and any other accompaniments of the application are found incorrect or wrong at any stage after the grant of the permission and the applicant will not be entitled for any compensation.
- 3) The permission shall be revoked if found expedient to such an action under the provision of section 50 of the Goa Town & Country Planning Act 1974.
- 4) The development permission will not entitle the applicant for making/laying any claim on water and any other connection from the government of Goa.
- 5) The Developer/applicant should display a sign board of minimum size 1.00 mts x 0.50 mts with writing in black colour on a white background at the site, as required under the Regulations.
- 6) The applicant shall obtain conversion sanad under the Goa Land Revenue Code 1968, before the commencement of any development/construction as per the permission granted by this order.
- 7) The soak pit should not be located within a distance of 15.00 meters from any other existing well in the plot area/plan.
- 8) The commencement and the completion of the work shall be notified to this office in writing in appropriate forms.
- 9) Completion certificate has to be obtained from this office before applying for occupancy certificate from the licensing authority.
- 10) Storm water drain should be constructed along the boundary of the effected plot abutting to the road.
- 11) Adequate utility space for the dustbin, transformer etc, should be reserved within the plot area. In case of any cutting of sloppy land or filling of low lying land, beyond permissible limit, prior permission of the Chief Town Planner shall be obtained before the commencement of the work as per the provision of Section 17-A of Goa Town & Country planning Act, 1974.
- 12) In case of compound walls, the gates shall be open inwards only and traditional access, if any passing through the property shall not be blocked.
- 13) The Ownership of the property shall be verified by the licensing body before issuing of the licence.

- 14) All the set back as shown on the site plan shall be strictly maintained.
- 15) The balconies proposed should not be covered in any fashion, which may lead to exceed FAR.
- 16) Along the intersection of the streets, no compound wall shall be raised to a height of more than 0.90 mts from the crown of the road for length of 0.9mts from the intersection of the street. This distance being measured from the corner point of the plot.
- 17) As the total built up area is more than 20,000m², hence MOEF approval has to be obtained before obtaining construction licence.
- 18) Collection & disposal of solid and liquid waste shall be implemented as per the project report submitted.
- 19) Solar water heating /Solar energy capturing system shall be implemented as per the project report submitted.
- 20) Fire Department clearance should be obtained if required.
- 21) 12 mts road serving to the plot should not be blocked or closed at any time and access should not be denied to the adjacent land locked property.

This approval is issued with concurrence of the Chief Town Planner.

Sub.: Proposed residential project in Survey no. 93/4 of Bambolim village (Curca village panchayat) in Tiswadi taluka of North Goa district. - reg.,

Sir,

I am directed to refer to your application dated 7th November 2012 seeking prior Environmental Clearance (EC) for the above project under the EIA Notification, 2006. Accordingly, the above proposed has been screened and appraised under Category S (a) on the basis of the documents enclosed with application viz. Form 1 and Form 1A (conceptual plan) as well as in response to the project-specific observations (i.e. *project presentation followed by site-inspection*) considered by the Goa State Expert Appraisal Committee (Goa-SEAC) in its Tenth meeting held on 11th December 2012 and Goa State Environment Impact Assessment Authority (Goa-SEIAA) in its Sixth and Seventh meeting held on 7th February 2013 and 15th March 2013 respectively.

2. It is noted that the proposal is for grant of prior Environmental Clearance (EC) for the construction a new residential project (i.e. *Stilt + 4 floors building comprising of 103 flats - 3BHK-31 and 2BHK-72*) in Survey no. 93/4 of Bambolim village in Tiswadi taluka of North Goa district. Project details and salient features of the proposed developmental activity is as under -

- a. Total plot area - 35,075 sq. mt.
- b. Open space (including garden / playground) proposed - 26,961.46 sq. mts.
- c. Total proposed built-up area - 25,918.85 sq.mts.
- d. Proposed area for green-belt - 9,000 sq.mts.
- e. Expected total occupancy - 783 persons
- f. Parking proposed - 217 ECS.
- g. Geo-technical soil investigation has been proposed.

h. Water requirement -

During Construction phase - 50m³/day to be sourced from private tankers.

During operational phase - 120 m³/d (i.e. 75 m³/d sourced from PWD and 45m³/d sourced from recycled water from STP).

One time water demand for firefighting - 100m³.

One time water demand for swimming pool - 100m³.

i. PP has proposed to construct underground water storage tanks of 50 m³ capacity.

j. Wastewater generated - 95m³/d to be treated in 100CMD Sewage Treatment Plant (STP) with Moving Bed Bio-Reactor (MBBR) technology. 80 kgs./month of sludge generated is to be used as manure. It is proposed that recycled water (about 85 CMD) will be used for toilet flushing (45 CMD) through dual plumbing system and irrigation in garden-40 CMD (i.e. green-area maintenance)

k. Solid waste generated -

During construction phase - 50 kgs./day of domestic waste to be disposed-off through local authorities and kgs./day of debris generated to be used for land-filling within the plot.

Hazardous waste generated (i.e. used oil from D.G. sets (20 kgs./m during construction and 10 kgs./m during operation) will be suitably disposed-off.

During operational phase - 400 kgs./day : biodegradable waste (240 kgs./d) to be treated through in-house mechanical composting. While, non-biodegradable waste (160 kgs./d) to be disposed through authorized recycler.

l. Power requirement. -

Construction phase - 100 KVA to be sourced from GSEB / Diesel generator.

Operation phase - 800 KVA, to be sourced from Goa State Electricity Board.
Back-up power through 01 DG set of 65 KVA capacity.

m. EMP has been prepared.

3. In view of the above and based on the recommendations of the Goa-SEAC; Goa-SEIAA, subsequent to compliances sought to project-specific observations / site-specific clarifications, has decided to accord prior Environmental Clearance (EC) to the said project under the provision of the Environment Impact Assessment (EIA) Notification, 2006; subject to compliance to the following "General Conditions":-

- a. Nutrient-rich top soil excavated during the construction phase be separately dumped/stored within the project area and be utilized during landscape

development instead of using the same as filling material/reclamation. Accordingly, Project Proponent (PP) should estimate approximate tonnage / volume of top soil required to be excavated along with the plan indicating the location where such topsoil is proposed to be stockpiled as well as indicate/furnish proposed plan for its utilization towards landscaping.

- b. The PP should use Ready-Mixed Concrete (RMC) to minimize air / water / land pollution and water usage during the construction phase.
- c. The Project Proponent (PP) should necessarily explore the possibility of energy conservation by tapping solar-based or hybrid energy sources towards power requirements.
- d. PP should adopt roof-top rainwater harvesting / conservation measures in the form of storing the harvested water so as to optimally utilize the water availability by constructing sumps for collection of rainwater or by collecting water in large polythene tanks thereby saving on utilization of tap water. Accordingly, PP should furnish approximate quantity of the water proposed to be stored / conserved which should be proportionate with the available rainfall within the developmental area. This should be in addition to structures, proposed if any, namely recharge-pits, which would recharge the groundwater aquifers. Thus, PP should submit a plan demarcating the areas for water storage / bore well location & groundwater recharge structures / STP installation, etc.
- e. As a Corporate Social Responsibility (CSR), the PP should establish / assist in establishing a non-project based infrastructure facility for nearby society / community / local authority and set-up a precedent for other competitors so as to achieve bottom-top approach.
- f. PP should prioritize the issues related to health and hygiene in complying with the matters related to waste disposal & treatment / air & water pollution / waste-water management.
- g. PP should not disturb the natural drainage and as far as possible maintain the original topography while designing for landscape development by planting local site-specific plant species and which are not alien to the local environment. No any varieties of *acacia* be used either as avenue plantations or as live-fencing.
- h. PP should clarify any issue related to public objections, if any, and should not conceal the scientific facts in light of the proposed developmental activity vis-à-vis its landuse categorization/zoning.
- i. PP should also submit half-yearly compliance report(s) in hard as well as soft copy format to the O/o the Goa-SEAC and Goa-SEIAA for the period upto project completion so as to enable project monitoring during the construction phase.

- j. Considering the existing land use / land cover of the plot area, the PP should necessarily adapt roof-top rainwater harvesting system for optimum utilization of water resources, especially for landscape development and its maintenance.
4. Further, the project proponent has been advised as regard to the following:
- a. 'Consent to Establish' shall be obtained from the Goa State Pollution Control Board (GSPCB) under Air Act and Water Act, as applicable and a copy shall be submitted to the O/o the Goa-SEAC and Goa-SEIAA.
 - b. Permission to draw groundwater, if any, shall be obtained from the Groundwater Cell of the Water Resources Department (WRD) prior to construction/ operation of the project.
 - c. Project proponent shall not make any change in the Layout Plan / Master Plan submitted to the Authority without its prior permission. In case of any change(s) in the scope of the project and/or otherwise, the project would require a fresh appraisal by the competent authority, as applicable.
 - d. Traffic congestion near the entry and exit points from the roads adjoining the proposed project site must be avoided. Parking should be fully internalized and no public space should be utilized for the same.
 - e. Project proponent shall make suitable provisions for waste water treatment and storm water disposal independently.
 - f. The diesel generator sets to be used during construction / after commissioning should be low sulphur diesel type and should conform to Environment (Protection) Rules prescribed for air and noise emission standards.
 - g. The installation of the Sewage Treatment Plant (STP) should be certified by the Goa State Pollution Control Board (GSPCB) and a report in this regard should be submitted to the Authority before the project is commissioned for operation.
 - h. Project proponent shall advertise at least in two local newspapers widely circulated in the region around the project, one of which shall be in the Konkani and Marathi language within seven days of the receipt of this letter, informing that the project has been accorded prior Environmental Clearance (EC) and the copies of the clearance letter are available on the DST&E website.
 - i. The Environmental Clearance is being issued without prejudice to the court case pending in the Court of law and it does not mean that project proponent has not violated any environmental laws in the past and whatever decision of the Hon'ble Court will be binding on the project

proponent. Hence, this EC does not give immunity to the project proponent in the case filed against it.

- j. The Authority reserves the right to add any stringent conditions or to revoke the EC, if conditions stipulated are not implemented / complied with to the satisfaction of the Authority or for that matter, for any other administrative reasons.
- k. Validity of the Environmental Clearance (EC) accorded shall be for a period of 05 (five) years from the date of its issue.
- l. Any appeal against this prior environmental clearance shall lie with the National Green Tribunal (NGT), if preferred, within 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010 (Central Act 19 of 2010).

Yours faithfully,

(Levinson J. Martins)
Director/ex-officio Jt. Secy. (STE) &
Member Secretary, Goa-SEIAA

Copy for favour of information to:

1. Mr. Jose Manuel Noronha, Chairman, Goa-SEIAA, House No. 946/K, Bagbhat, Rai, Salcete, Goa-403 720.
2. Dr. S. P. Fondekar, Chairman, Goa-SEAC, 150/A, 1st Floor, Near Arora Gas Service, Malbhat, Margao, Goa - 403 601.
3. P. A. to Principal Secretary (Environment), Secretariat, Porvorim, Goa.
4. P. S. to Additional Secretary, Ministry of Environment & Forests (MoEF), Paryavaran Bhavan, C.G.O. Complex, Lodhi Road, New Delhi - 110 510.
5. Member Secretary, Goa State Pollution Control Board (GSPCB) to the Dempo Towers, Patto, Panaji.
